RE: Application for Industrial Attachment – Computer Systems Engineering Student

Dear Sir/Madam,

I am writing to apply for the Industrial Attachment position advertised on your company's careers portal. I am a first-year BSC Hons Computer Systems Engineering student at the Botswana Accountancy College, eager to gain practical experience in a professional engineering environment.

My coursework has provided me with a foundation in systems logic, programming, and software tools. I am proficient in Microsoft Office Suite, including advanced Excel and Access, and have basic skills in HTML and VBA. Through my previous role assisting in my family's supermarket, I developed strong problem-solving, time-management, and financial literacy skills.

I am particularly drawn to TechNova Solutions due to your company's focus on integrating software with industrial systems, which aligns closely with my career interest in automation and instrumentation.

I am a resilient and proactive learner, committed to contributing positively to your team. My CV is attached for your review. Thank you for considering my application. I look forward to the opportunity to discuss my application with you further.

Yours faithfully,

Pako Fain Mojuta
